

My Dream...

I have a dream that one day everyone in the world will stop littering and recycle so our earth will be clean. If everyone recycles and picks up garbage from the ground the earth will be a better place to live in.

Today the world is polluted and dirty. Our world is polluted everywhere. There is garbage everywhere. If we recycle our planet will be a clean and good place to live in.

Everyone can help by not littering. If we pick up bottles from the ground we can get 5¢ back for recycling. If we all recycle and don't litter our planet will be the best place to live in.
