

My dream is that kids and parents won't fight. They should not fight so he or she won't go to jail or get hurt badly. If you get hurt at school maybe it doesn't hurt but if it hurts then you could get a ice pack, a bandage if you have or you could go home. We don't want to get hurt. Parents should not fight so they won't die and if you fight stop fighting stop! stop! stop! If you stop fighting the world will be a better place and people will not miss people and lose their love. So you should never fight.
