# The 4-Leaf Clovers

Name: Elianny 5<sup>th</sup> grade

One Sunday morning, 4 girls woke-up feeling something strange. The 4 girls were each named after flowers. Their names were Lily, Daisy, Rose, and Jasmine. Each of them were very pretty. They didn't have parents. Lily was 9 years old, Daisy was 10 years old. Rose was 13 years old, and Jasmine was 16 years old. They were very poor. They live in a cottage with a wide open garden.

That Sunday morning, each girl went to the garden to find a 4-leaf clover. They felt something weird again, but they didn't have any clue what it meant. All four girls did not have any luck. They found only 3-leaf clovers and decided to go back to their cottage.

Lily went to rest because it was 9:38 am. Rose went out to pick flowers. Daisy went to set the table and Jasmine went to cook breakfast for them. After the girls were done eating, they went to a place named GoldTown. They bought food with the money Jasmine earned while cleaning the Master's house. The Master was a very evil person, so Jasmine was lucky that he didn't say no. The four girls walked to their cottage. On the way back, Lily and Daisy saw something weird. They told Jasmine and Rose about it, but they didn't believe Lily and Daisy. Lily and Daisy were scared, so they walked in front of Jasmine and Rose. The girls arrived back to their cottage, and started the house chores. When Jasmine was working with the chickens, she felt like something was following and looking at her. She quickly

ran to Rose, who was watering the plants. Daisy and Lily came to see what was going on. Lily said, "You see, that's what me and Daisy were trying to tell you." We will stay here for five minutes and then we can check where Jasmine was working. As Rose, sprinkled drops of water on the plants, she saw a little man in green. He said "are you Rose, Rose Springfield"? Rose got so scared that she threw the water can behind her. Lily said, "who are you?" "I'm Leprechaun, I live at the end of the rainbow." "My boss send me to get your parent back from the evil M." So lets go. Said the Leprechaun. They packed up the things they need and went to the boss. When they got there they saw that the boss was a lion. They all talked about the trip. It was time to go. The Leprechaun and the four girls got on the train and went to the evil M. ~~when~~

When they got there, the four girl stepped out, and on the lawn of the spooky garden. The castle was dark gray and there was three bats fly around the castle's tower. When they got in the castle there was a map. The map said "To the cage". Lily said "That's must be where our parents are". They follow the map and got to a room with a cage. There was a man sleeping with the key. Daisy went to get the key chain but then someone was about to come in. The four girl went into an room. The room had 3-leaf clover but then they all ~~found~~ saw

a 4-leaf clover. The four girl took it out carefully. When Jasmine took the the 4-leaf clover, they went back into the cage room. The man was gone. But the sleeping man was there with the key still. So Daisy went and got the key. They took out their parents. They were really ~~excited~~ excited. When they went back to the map, Evil M came. The girl went quickly into a room. The room was a closet. So Evil M passed and went into his office. Then the family ran out out the closet and they got on the train.

When they got back to the cottage someone was there. ~~It was~~ It was the master. He said, "that Jasmine and Rose can work in the town." The girls were happy. "So the 4-leaf clover was a lucky tool, after all!" said Daisy. The poor family turned out to be rich and happy. So they lived happily ever after

## The End }
