

One day, Christina was walking to the park with her friends. Suddenly she saw a 4 leaf clover. She pulled it out from the ground and put it in her pocket. She ran home and took out the 4 leaf clover. It was wrinkled but at least it was not ripped.

The next day, Christina got up from her bed and she thinks that she's going to have a lucky day. But she was not wrong, she was right. Because Tuesday was the day she didn't go to after-school.

She was lucky because it was a half day ~~in~~ in school and half day's she doesn't have to go to After-school programs.
